

# Workshop on Observational Techniques

29 August – 9 September 2022  
at Ondřejov observatory

Registration deadline 30 June 2022

## Topics

- Introduction to photometry and spectroscopy
- Planning an observing run
- Data mining with Topcat
- Observations with the Perek 2-m and Mayer 65-cm telescopes in Ondřejov
- Data reduction: echelle spectra & photometry using IRAF
- Photometric variability of binaries & Light curve analysis
- Evolved stars & Spectral classification

Stellar Physics Department, Astronomical Institute of CAS  
Stellar Astrophysics Group, Potsdam University, Germany

## Organizers

Scientific Organizing Committee (SOC)  
Prof. Stephan Geier  
Dr. Veronika Schaffenroth

Local Organizing Committee (LO)  
Dr. Brankica Kubátová (chair)  
Doc. Jiří Kubát  
Dr. Olga Maryeva  
M.Sc. Mauricio Cabezas
